

MEMORANDUM, City of Lodi, Public Works Department

TO: City Manager
FROM: Public Works Director
DATE: January 5, 1988
SUBJECT: Petition for Stop Signs at Donner Drive/Calaveras Street and
Pioneer Drive/Calaveras Street

At the September 2, 1957 Council meeting, we reviewed the City's Traffic Complaint Procedures with the City Council. In accordance with those procedures, staff has done a preliminary review of the attached request for stop signs at Donner Drive/Calaveras Street and Pioneer Drive/Calaveras Street and recommends it be given a low priority.

We received a similar letter request from the Principal of Lawrence School in November 1986. (See attached letter and complaint form.) We completed the City's complaint form which indicates there have been no accidents in 1984, 1985, and 1986 at either intersection. In 1987, there has been one accident at Donner Drive/Calaveras Street and none at Pioneer Drive/Calaveras Street.

These two intersections are low on the attached High Accident List. Staff is currently reviewing accident reports for the first seven signalized intersections on the High Accident List. This is a time consuming procedure since these intersections have a high number of accidents (253 accidents in 3 years).

Staff feels the improvements to the signalized intersections have a higher priority over intersections with zero to one accident over four years. In January, staff will update the entire High Accident List to include 1987 accidents. New traffic counts will be taken in the area. Unless daily volumes are near or over 2,000, we see no reason to control these tee intersections.

Paul L. Wolske, Director
Public Works Director

To Whom It May Concern:

A dangerous traffic problem exists at the corner of Calaveras Street and Donner Way. As the Principal of Lawrence School, I observe this problem daily. Due to the uniqueness of the curve on Calaveras Street and the placement of both the James Linn Childrens' Center and Lawrence School, the scene has distinct possibilities for a traumatic accident.

Parents hurrying to the Childrens' Center, drivers hurrying around a semi-blind curve, and many children walking to school all add up to this possibility. Even without the children present, I have witnessed several near accidents involving cars driving one way on Calaveras Street and another on Donner. Drivers are just not aware of each other on that corner.

My request is to have a stop sign placed at the intersection of the two streets. This sign would stop the north bound drivers on Calaveras Street and make them aware of drivers rounding the curve that becomes Donner Drive. I have had many parents tell me of their concern for their own lives as well as those of their children on this corner.

I have placed school safety patrol members at this corner but there are still drivers that do not heed the the safety patrol signs.

I will appreciate your attention to this matter. Some parents are a bit upset with this situation and a stop sign would be of great relief to us all.

Thank you,

E.J. McCaughna
Principal

Notes:

1. LEGEND: N = no control, Y = Yield, S = Stop, SA = Multi-way stop, TS = traffic signal
 * indicates intersection placed on list due to a citizen complaint.
 x indicates analysis action done, appropriate data revised accordingly
 - indicates not applicable or action not done
2. IMPORTANT This list is for preliminary priority ranking only. Many volumes are estimated and the accidents have not been verified. Because of the small numbers involved, changes in these variables may greatly affect the accident rate.
3. Intersections included in this list determined by visual inspection of accident pin map. All intersections with more than three accidents in two years were included.
4. Volumes shown to nearest 10 vehicles are based on actual counts at or near the location. Counts shown to the nearest 100 vehicles are estimates.
5. Verified accidents are those correctable by the control being analysed.

Ms. Deborah Mayers
806 Calaveras
Lodi, CA 95240

Dear Ms. Mayers:

This letter will confirm action taken by the Lodi City Council at its January 6, 1988 Council meeting, whereby Council referred to Staff the petition received requesting stop signs at the intersection of Donner Drive and Calaveras Street and Pioneer Drive and Calaveras Street asking that Staff's report regarding the matter be made to Council as soon as possible.

It was suggested that the location of the school in the area and the number of children attending the school be given consideration in Staff's recommendation.

It is anticipated that this report will be back before the Council at the February 17, 1988 Council meeting. A copy of the agenda and council communication will be forwarded to you by the Public Works Director prior to the meeting.

If you have any questions, please do not hesitate to call this office.

Very truly yours,

Alice M. Reimche
City Clerk
